# OYA

## ABOUT OYA

OYA was created with the vision of producing better quality, better designed, and more durable outdoor cedar furniture and accessories than what has thus far been available.

Our team is comprised of professionals who are committed to quality standards for our customers that exceed your expectations.

## WHY CEDAR?

Cedar is a **naturally beautiful wood**. It is **incredibly durable, versatile and weather resistant**.

**Cedar is one of the lightest softwoods available:** it will be easier for you to move it around (and store it away) than a heavy hardwood that requires a bodybuilder to lift it!

We only use the best Canadian quality Western Red Cedar.

## OUR DESIGNS

**OUR DESIGNS have been carefully engineered** to give you the maximum amount of ergonomic comfort possible, allowing you to enjoy sitting on our furniture for as long as you like.

Three words come to mind when describing how we make our furniture... **quality, quality, quality.**
